

MERCHROOM - API Routes and Data Flow

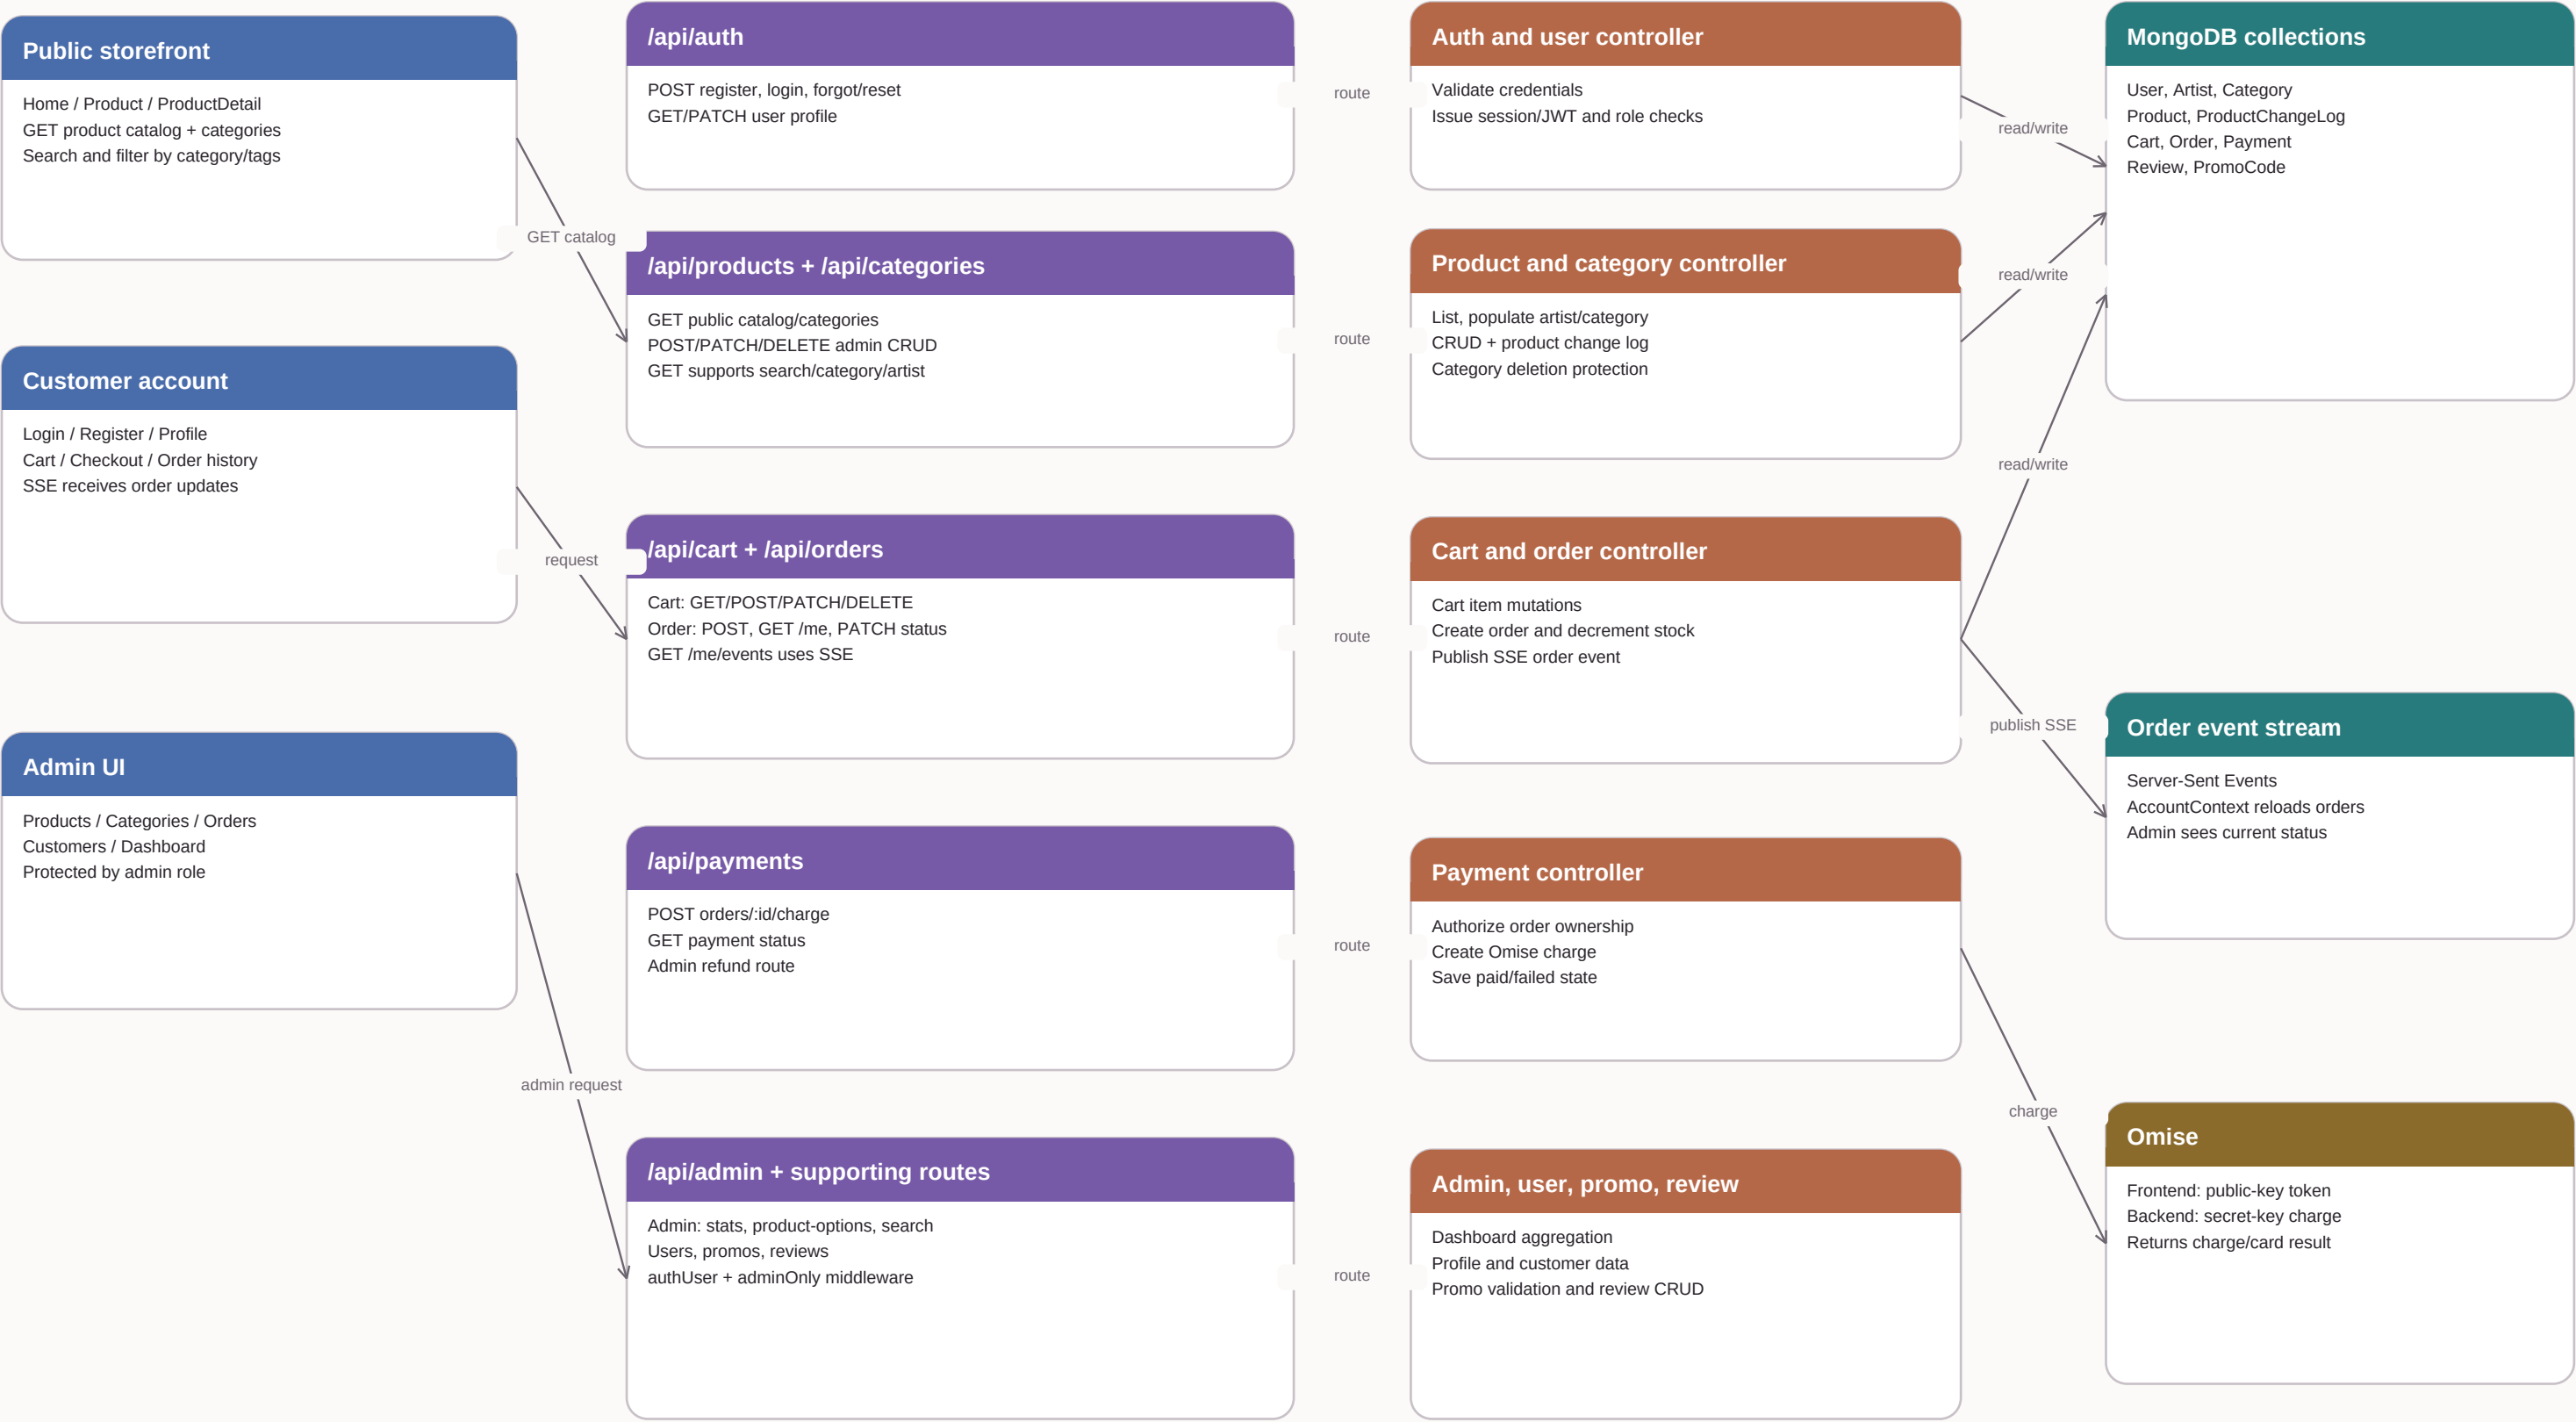

How frontend requests travel through Express routes and controllers to MongoDB, with Omise for card charges

1. FRONTEND

2. EXPRESS API ROUTES

3. CONTROLLERS AND SERVICES

4. DATA AND EXTERNAL SERVICE

Legend: blue = frontend, purple = route layer, orange = controller/service, teal = MongoDB, brown = external payment provider

All protected write routes pass authUser; administrative routes additionally pass adminOnly.
